## Prozone Ozone Generator

This auto adjustable ozone generator retards growth of harmful bacteria and destroys malodours, bringing outdoor freshness indoor.

**Breaks down malodours naturally**

In nature, ozone is produced by the action of high energy discharges in lightening on oxygen in the atmosphere. Prozone recreates this natural process. The ozone produced destroys harmful micro-organisms with which it comes into contact and breaks down malodour causing compounds neutralizing the unpleasant smells they produce. Because ozone is a gas it penetrates to even the most inaccessible locations. The process leaves no chemical residue, all 'unused' ozone reverts to oxygen within a short time.

CODE	DESCRIPTION	QTY.	PRICE
PROZ	Prozone Generator Unit	1	£238.00
FANASS	Prozone Fan Assembly	1	£23.62
PROZPLAT	Prozone Ceramic Plate	1	£18.31

### Features
