GEORGE

George - Weight 8.8kg, Motor 1200w, Airflow 40lit/sec. The twin switch feature allows the operator to change between vacuuming and spray extraction, or use both at the same time. This product has the useful additional feature of wet pick-up ideal for dealing with spillages such as washing machine floods etc. It should be mentioned that the dry filters must be removed prior to wet applications. The soil extraction feature of the George consists of an internal tank holding the cleaning solution and a recovery tank which is part of the drum moulding. The drum is also equipped with a carrying handle for easy disposal of waste material.
